About Central Public Procurement Portal

In pursuance of the recommendations of the Committee on Public Procurement headed by Shri Vinod Dhall and the decisions thereon of the Group of Ministers constituted to consider measures to tackle corruption and ensure transparency, the Department of Expenditure has taken action for setting up a Central Public Procurement Portal (CPP Portal in 2012). National Informatics Centre (NIC) has been given the responsibility for setting up this portal.

The primary objective of the portal is to provide a single point access to the information on procurements made across various Ministries and the line Departments. The CPP Portal is accessible at the URL http://eprocure.gov.in and it has e-publishing and e-procurement modules. It is mandatory for all Ministries/ Departments of the Central Government, Central Public Sector Enterprises (CPSEs) and Autonomous and Statutory Bodies to publish all their tender enquiries in the CPPP portal.

Background

National Informatics Centre (NIC), Ministry of Electronics & Information Technology, after having developed a generic software "Government eProcurement system of NIC (GePNIC©) has" in close association with **Procurement Policy Division, Department of Expenditure, Ministry of Finance** developed, hosted and implemented the Central Public Procurement Portal customized to cater to the electronic procurement/ tendering requirements of the Central Government departments and other organizations.

The system is made available as a platform and can easily be adopted for all kinds of procurement such as Goods, Services & Works. It aims at transparency and non-discrimination amongst bidders, by allowing free access to tender documents, clarifications, secure online bid submission and access to bid opening event to all, from any place on 24x7 basis, using the system through Internet, in a faster, and secure environment adopting industry standard open technologies.

Variety of procurement requirements of varied procuring entities has been built in a robust configurable , workflow-based manner.

This can be configured for use by an organization at its apex level, and at multiple subordinate levels, at which tenders could independently be floated.

Strong in-built security features including two-factor Authentication with Digital Signature Certificates (DSCs) for foreign nationals also as per IT Act, Usage of SSL, Role-based User Access and Bid-encryption at Client end, using PKI technologies. Security audited by as per EPS guidelines by STQC.

User base across the country by 29 State / Union Territories of India and by around 550 Central Govt. entities. Processed 57.68 Lakh electronic tender's worth over Rs. 79.91 Lakh Cr. have been processed successfully till 31st March 2020.

Purpose & Audience

This annual report on Central Public Procurement Portal (CPPP) based on the usage in the year 2019 - 2020. The target audience would be all users of Central Public Procurement Portal and other procurement officials or senior management involved in Government procurement. The purpose of the report is to showcase achievements of electronic procurement through CPP Portal across the country by various Central procuring entities, Autonomous Body and Public Sector Unit(s). The Annual reports provide information on statistical reports and history and summarize the State's statistics in the past year. It shows the trends of growth and other variations. Annual report highlights the achievement of States/ UTs/CPSEs who have shown shown tremendous performance as procuring entities.

The enhancements made in the portal for benefit of users are also highlighted. It mentions the increase in User base and also volume of transactions handled by the system.

This report will indicate the importance of electronic procurement system and in this era of Digital Transformation. The Central Public Procurement Portal catering a platform has brought in transparency and reliability in procurement process. Through this document the provided information will provide insight of features and security of CPP Portal where the bid will not get tampered by any means possible, bidding document will be available with the respective vendor in tenders, RTI vigilance will get minimized and this portal also promotes open competition with free registration for bidders.

Lessons Learnt & Major Challenges

Mission : Develop a secured and reliable end-to-end technological model to ensure not only fair, transparent and cost effective procurement processes, but also develop, maintain and continuously update a data analytics platform needed to support strategic decisions towards public expenditure reduction and optimization.

It is believed that implementation of this will allow it to pursue its mission along three key strategic dimensions:

Key issue : Need of integration of information across various Procurement Giants. Need of Standardization for monitoring performance Indicators.

Financial

To assess the quantum of saving after moving to electronic platform.

Political

Through completely transparent, rigorous and efficient procurement processes.

Social

Providing a better service for all stakeholders, achieving their buy-in and contribution, alongside a fundamental cultural change in the Public Administration

Central Public Procurement Portal

(Assimilation of all tenders across the country)

One stop shop for all activities for all GOI Policies/ Standards/ Guidelines / Orders, etc. on public procurement.

Mandatory for all Ministries/ Department of the Central Government, their attached and subordinate offices, Central Public Sector Enterprises (CPSEs) and autonomous/ statutory bodies to make their tenders enquires available in Central public procurement Portal. Various methodology of same is as follows :

Central Public Procurement Portal

ePublishing Portal using GePNIC©	ePublishing Portal using GePNIC©	XML Upload
Online Bids through eProcurement	**For Manual Bids through ePublishing**	**Online/ Manual Bids through Third Party Service Provider Solution**
Portal using GePNIC©. Complete eTendering cycle starting from Publishing, Bid Submission, Bid Opening, Evaluation and Awards.	Portal using GePNIC©. Online publishing of Tender Document, Corrigendum and Award details.	Online Publishing of Tender Document, Corrigendum and Awards

** Data comprise of eTenders processed through NIC system, GePNIC in CPP portal as well as 29 States/UT's.*

Journey so Far

Central Public Procurement Portal was made operational on 1st January, 2012 by providing a two phased model for seamlessly brining in all Central Government entities into electornic procurement ambit - ePublishing and eProcuement.

By issuing various guidelines and with constant monitoring, Procurement Policy Division, Department of Expenditure has successfully on boarded majority of Central government procuring entities on to the portal. Multiple channels of Capacity Building, Easy availability of Digital Signature Certificates, Process re engineering as per need, inculcating the adoption of Best Practises across organisation, availability of uniform platform for easy of use and quick adoption in case of interdepartmental transfers etc were the steps taken which resulted in multifold increase growth over the last few years across the country.

Financial Year	Electronic Tenders	Value of Tenders (In ₹ Cr.)	Average no. of Tenders per Month	Average Value of Procurement per Month (In ₹ Cr.)
2019-20	13,15,769	15,84,891.71	1,09,647	1,32,074.31
2018-19	13,67,149	18,07,951.49	1,13,929	1,50,662.62
2017-18	11,11,230	19,58,787.38	92,603	1,63,232.28
2016-17	6,81,971	8,90,968.84	56,831	74,247.40
2015-16	5,13,842	6,92,177.78	42,820	57,681.48

Central Public Procurement Portal

(As per Government Finance Rules (GFR 2017)

The Transparency Principle which is one of the fundamental principles of public procurement as per General Financial Rules, 2017 (Rule 144) states that 'all procuring entities should ensure that offers should be invited following a fair and transparent procedure and also ensure publication of all relevant information on the Central Public Procurement Portal (CPPP).

Central Public Procurement Portal (CPPP) has been designed, developed and hosted by National Informatics Centre (NIC, Ministry of Electronics & Information Technology) in association with Dept. of Expenditure to ensure transparency in the public procurement process. The primary objective of the Central Public Procurement portal is to provide a single point access to the information on procurements made across various Ministries and the Departments.

E-Publishing (GFR - Rule 159) : It is mandatory for all Ministries/Departments of the Central Government, their attached and Subordinate Offices and Autonomous /Statutory Bodies, to publish their tender enquiries (including advertised/limited/single tender enquiries), corrigenda thereon and details of bid awards on the Central Public Procurement Portal (CPPP). E-Publishing has dispensed with print-advertisements in Newspaper etc.

Exemption : *Individual cases where confidentiality is required, for reasons of national security, would be exempted from the mandatory e-publishing requirement. These instructions also would not apply to procurements made in terms of Purchase of goods without quotations/ Purchase of goods by purchase committee.*

E-Procurement (GFR - Rule 160) : It is mandatory for Ministries/ Departments to receive all bids through e-procurement portals in respect of all procurements.

Ministries/ Departments which do not have a large volume of procurement or carry out procurements required only for day-to-day running of offices and also have not initiated e-procurement through any other solution provided so far, may use e-procurement solution (CPPP) developed by NIC. Other Ministries/ Departments may either use e-procurement solution developed by NIC or engage any other service provider following due process.

Exemption : *In individual case where national security and strategic considerations demands confidentiality, Ministries/ Departments may exempt such cases from e-procurement. Also, Competent Authority may exempt in case of tenders floated by Indian Missions Abroad (global tender).*

Advertised /Open Tender Enquiry (GFR - Rule 161) : Invitation to tenders by advertisement (open tender) should be given on Central Public Procurement Portal (CPPP) at www.eprocure.gov.in and on GeM. An organisation having its own web site should also publish all its advertised tender enquiries on the web site. The Procuring Entity should also post the complete bidding document in its web site and on CPPP to enable prospective bidders to make use of the document by downloading from the website.

Global Tender enquiry (GTE) as per manual for procurement of goods 2017 is similar to OTE but, through appropriate advertising and provision for payment in Foreign Currencies through Letter of Credit, it is aimed at inviting the participation of inter-alia foreign firms. Advertisement in such cases should be given on Central Public Procurement Portal (CPPP).

Limited Tender Enquiry (GFR - Rule 162) : An organisation should publish its limited tender enquiries on Central Public Procurement Portal (CPPP) as per Rule 159. Apart from CPPP, the organisations should publish the tender enquiries on Department's or Ministry's website.

As per manual for procurement of goods 2017, certain items are procured only from Original Equipment Manufacturers (OEMs) or manufacturers having proprietary rights (or their authorised dealers/ stockists) against a Proprietary Article certificate. Even in PAC procurements the NIT and the Award of Contract should be put on the website of CPPP and Procuring Entity.

Transparency, competition, fairness and elimination of arbitrariness in the procurement process (GFR-Rule 173 (xviii)) : The name of the successful bidder awarded the contract should be mentioned in the CPPP, Ministries or Departments website and their notice board or bulletin.

Identification of likely sources for consulting services (GFR - Rule 183 ii) : Where the estimated cost of the consulting services is above Rupees twenty-five lakhs, in addition to Rule 183 (i), an enquiry for seeking 'Expression of Interest ' from consultants should be published on Central Public Procurement Portal (CPPP) at www.eprocure.gov.in and on GeM. An organisation having its own website should also publish all its advertised tender enquiries on the website

Registration of Suppliers (Rule 150) : Registration (Simply registering the contractor, without any verification) - All the Ministries/Departments shall register the prospective contractors on their e-procurement portal or in the CPPP (in case they do not have their own e-procurement portal) before submitting their bids.

Major Activities in 2019-2020

Parameter	Value
Central Government Organisations on boarded	392
Procurement Officials Registered	53,637
New Features Added	Preferential Bidder Treatment Added new online payment gateway with Net Banking, NEFT/RTG - INDUSIND Bank Integrated with Startup India by DPIIT
Andaman & Nicobar Islands Ladakh	https://eprocure.andaman.gov.in https://tenders.ladakh.gov.in

Major Highlights

Haryana government decided to completely switch over to NIC eProcurement portal https://etenders.hry.nic.in for all its tendering requirements.

The portal for E-auction of Gifts items presented to Hon'ble Prime Minister Shri Narendra Modi, was inaugurated on 14th Sep 2019.

Asian Development Bank (ADB) invited NIC to share their experience on 'Integrating Installations in a National System: The GePNIC Experience' in 5th e-Government Procurement Conference held at ADB Headquarters, Manila, Philippines.

A talk was delivered on "e-Procurement System - A Tool for Transparency in Public Procurement" to help implement preventive vigilance.

Coal India Limited was conferred with an Award for automated e-tendering system for excellence in "Innovation in Procurement Process" by Indian Institute of Materials Management at their annual seminar "NATCOM 2019".

DG (NIC) was invited to address participants in Global Procurement Summit 2020. She spoke on "eProcurement, eReverse Auction, AI, Big Data, IoT and Robotics". All India Management Association (AIMA) along with World Bank and Government of India.

Benefits to Buyers & Bidders

Benefits to Buyers

- Uniform and standardized tendering process across the department
- Reduction in Procurement cycle time
- Reduction of Tender publishing costs
- Safe, Secured Platform
- Procurement Processes Efficiency
- Automated milestone based alerts
- Multiple bid-formats
- Wide publicity
- Discourages Cartel formation
- Real Time 24 x 7 availability of information
- Improved Accountability
- Automated milestone based mail / SMS alerts and status updates
- Centralized portal where in procurement related information of all Central Govt. entities are available
- Visibility of Contract awarded with L1 rates
- Extensive search on various Product categories and other parameters

Benefits to Bidders

- Zero Cost to Bidders, No Per-Bid Charges or registration charges
- Eliminates the need to submit bulky and multiple bid copies in paper form
- Anytime & Anywhere Bidding, No physical threat
- Fair, Free and Fearless participation
- Provision to modify , re-submit and withdrawal the bid documents till bid closing time.
- Increased visibility: all tender information available at one place on line
- Cuts down unnecessary physical trips to office of tender inviting authority
- Transparent system inspiring confidence among bidder community

Stakeholders

In eProcurement System / Organizational Set-up

Stakeholder identification

Stakeholders for e-procurement can include any person or functional area that "touches" the systems, tools or information being held. This may include people at all levels of the organisation and external contacts such as suppliers and outsourcing partners. The following list provides a general view of functional procurement areas and their potential e-procurement-related activities.

Functional Procurement Areas and Their Activities	
Accounts Payable	Maintins catalogues; Process POs; Process invoices
Audit	Ensure laws, rules, procedures & guidelines are being followed
Buyers	Initiate requisitions; Access catalogues; Approve POs; Receipt purchases; Process invoices; Approve payments
Executive	Sponsor Champions program; Develops policy; Secures funds and resources; Supports policy and procedural changes across functional areas
Finance	Manage, analyse and access data; Develop & implement policy and procurement processes
IT	Implement, integrate & manage online systems and tools; Develop business & IT strategy; Develop & implement policy
Legal	Write & negotiate contracts
Procurement	Manage, analyse and access data; Source suppliers; Manage categories & contracts; Manage suppliers; Develop & implement policy; Receipt purchases; Approve payments
Security	Develop & maintain security controls and requirements; Develop & implement policy
Suppliers	Respond to tenders; Participate in contract management; Maintain catalogues; Process POs; Submit invoices; Receive payment

Managing Stakeholders

When managing suppliers, it is important to demonstrate the benefits of e-procurement as their engagement is critical to success. Communicate what e-procurement can and cannot do followed - up with regular progress reporting and quantifiable metrics. These messages, form part of a strong Communications Plan and will help to keep key stakeholders informed and manage their expectations.

Getting stakeholders to participate can be difficult, especially if they do not understand the value of the implementation to themselves and their functional area. A successful model includes a cross - functional team with members from each functional area (see list detailed in Stakeholder Identification). The team can support testing, development and training activities along with acting as product champions.

Here are some examples of how well - managed stakeholders at different levels in the organisation can positively impact an e-procurement implementation :

1

Key stakeholders can spear head the change management activities by reviewing and updating local policy and procedures that will be impacted by the implementation.

2

The Executive Sponsor can ensure new policies and procedures are put into place to drive uptake of e-procurement.

3

End users prefer a fast and easy procurement process. Their roles and responsibilities often change as a result of e-procurement. Changes should be identified and communicated in a way that allows them to absorb the information and incorporate it into their work processes.

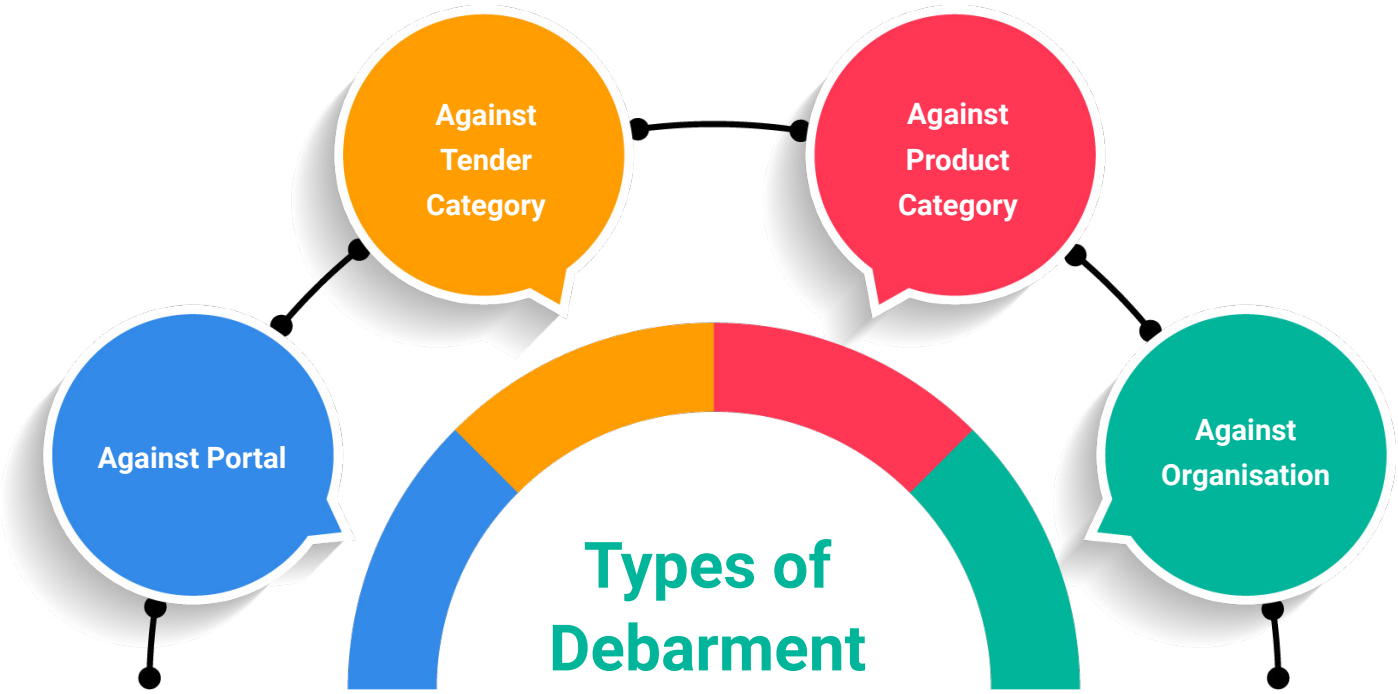
Debarment

Debarment is the state of being excluded from enjoying certain possessions, rights, privileges, or practices and the act of prevention by legal means. Central Public Procurement Portal facilitate department organisations to upload the debarred bidder information on the portal.

- If a bidder is debarred, then the same cannot participate in bidding activities based on the type of debarment.
- Department official (Tender Inviting Authority) can debar a bidder either using bidder's Login ID or PAN number registered on portal.

GFR 2017 - Rule 151 | Debarment from bidding		
1	A bidder shall be debarred if he has been convicted of an offence	
	(a)	Under the Prevention of Corruption Act, 1988; or
	(b)	The Indian Penal Code or any other law for the time being in force, for causing any loss of life or property or causing a threat to public health as part of execution of a public procurement contract.
2	A bidder debarred under sub-section (i) or any successor of the bidder shall not be eligible to participate in a procurement process of any procuring entity for a period not exceeding three years commencing from the date of debarment. Department of Commerce (DGS&D) will maintain such list which will also be displayed on the website of DGS&D as well as Central Public Procurement Portal.	
3	A procuring entity may debar a bidder or any of its successors, from participating in any procurement process undertaken by it, for a period not exceeding two years, if it determines that the bidder has breached the code of integrity. The Ministry/Department will maintain such list which will also be displayed on their website.	
4	The bidder shall not be debarred unless such bidder has been given a reasonable opportunity to represent against such debarment.	

Types of debarment facilitated on CPPP portal are listed below:



Advantages

• CPPP portal provides PAN India Debarment/ Blacklisting informating (Active and Archived) including States and CPSE's which do not use GePNIC©.

• Any procuring entity can cross check a particular vendor's debarment information before issuing the award.

List of Services Rendered

- Availability of complete tender details in public domain under the tender status link of the portal.
- Comprehensive search criteria with various parameters.
- Tender information of all Central Government procuring entities in a single platform of CPPP.
- Tender information of all State Government procuring entities also assimilating in a single platform of CPPP.
- Dashboard with prominent KPIs indicating trends of time , cost, competition, reach, performance.
- Utmost secrecy and integrity of the bids submitted using PKI Encryption.
- Call Centre Service 24x7 Helpdesk support and dedicated email support.
- Drill down MIS reports on login.
- Event alert mechanisms via emails, SMS and mobile app.
- Vendor Grievance information capture.
- Annual audits as per EPS guidelines by STQC.
- Continuous multi layer Capacity Building mechanisms.
- MDP on Procurement at NIFM.
- Online, Daily Web learning sessions.
- Customised class room training at user premises.

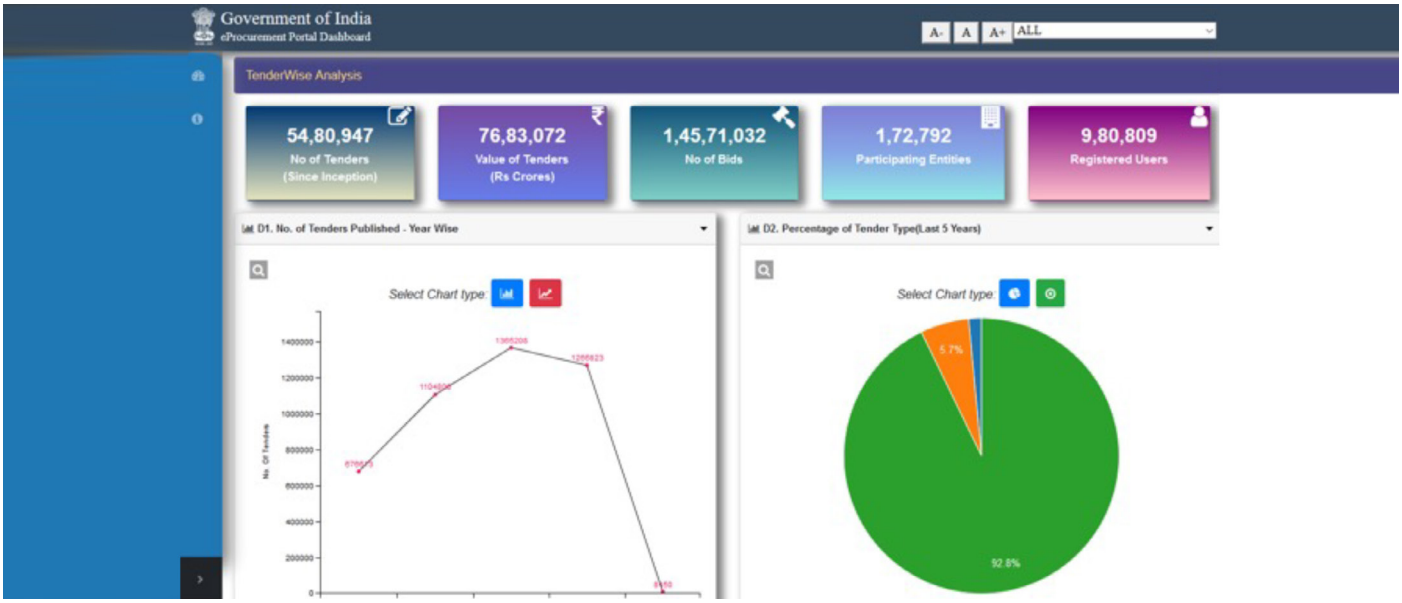
Central Public Procurement Portal Dashboard

https://eprocure.gov.in/eprocdashboard/

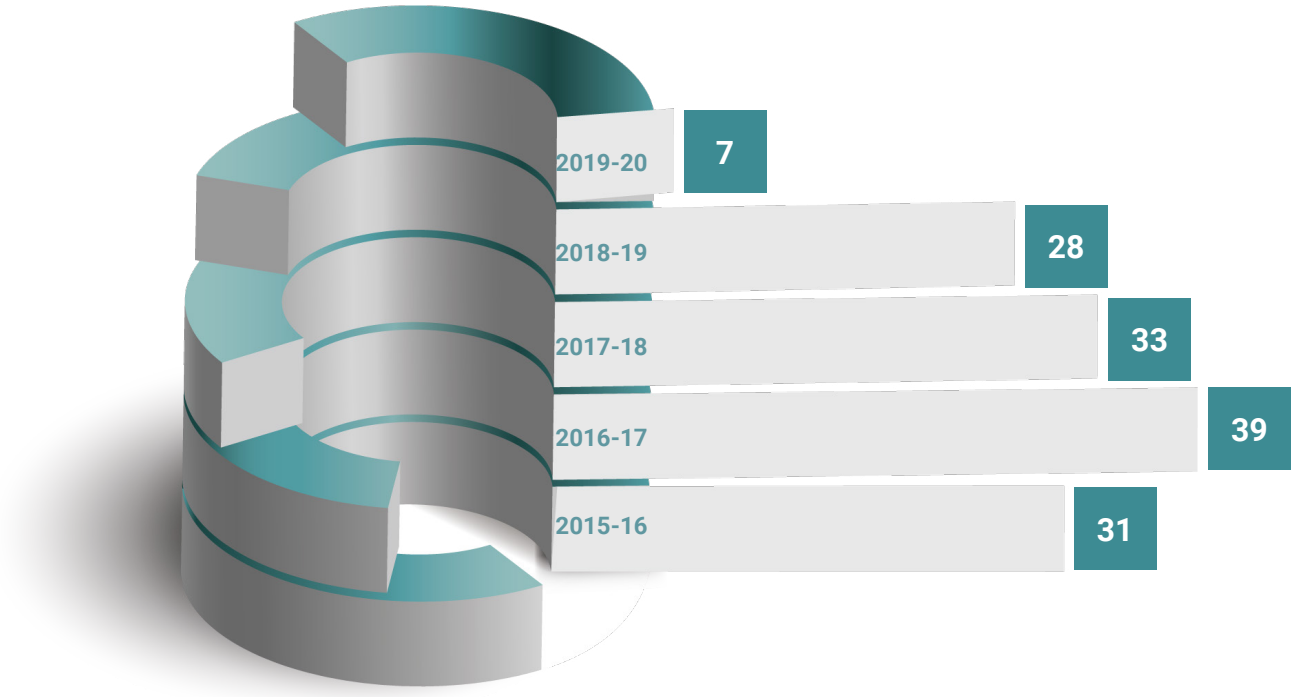
As we have seen that eProcurement is used across the country by State and Central Governments. GePNIC© system cater to around 75% of country's electronic procurement needs. So far we had varied MIS reports to understand the performance, show case the major savings of time / cost benefits.

A dashboard has been put up in CPP Portal which contains a snapshot and summary of key information about the transactions in visual form that enables one to get an instant impression on the performance. Once can assess the various KPIs, which provides various insights into the procurement at a glance. Based on the feedback received more and more KPIs are being built.

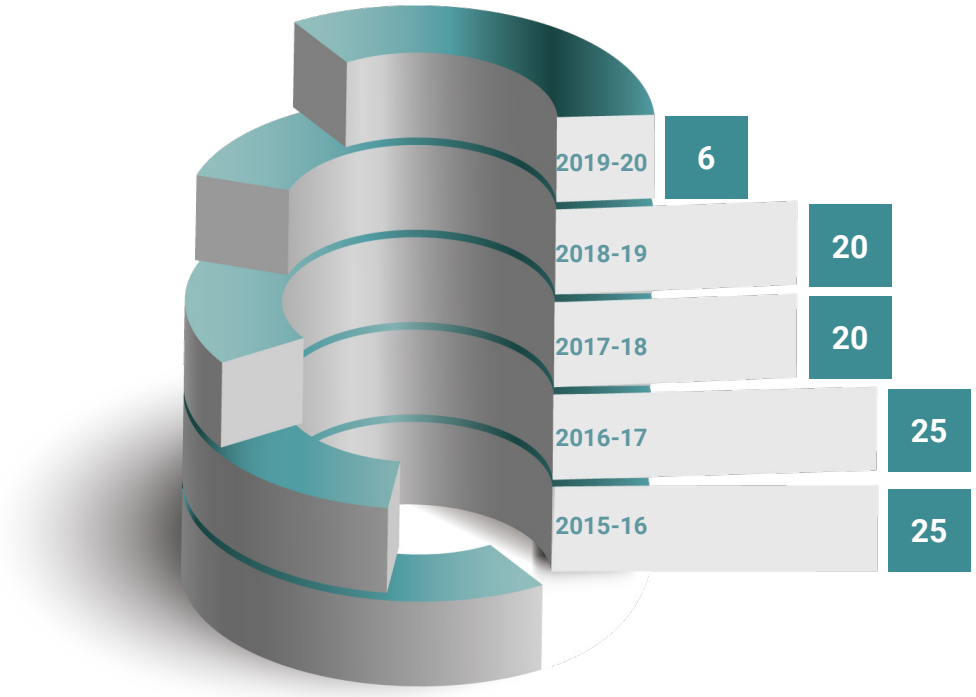
CPPP dashboard : https://eprocure.gov.in/eprocdashboard



Average Days Taken to Evaluate Financial Bids - Year wise



Average Days Between Opening of Technical Bids and Financial Bid in 2 Packet System - Year Wise



Mobile App

Central Public Procurement Portal Mobile App provides convenient, easy and free access to tenders published on the Central Public Procurement Portal.

This app provides details of eTenders published by various entities of Government of India through the Central Public Procurement Portal. Basic and important details of tenders are made accessible through the app and access to complete tender information is free. The users may also visit www.eprocure.gov.in for additional details.

Overall Features

- Search easily for tenders, quotations, bids & contracts or receive daily notification, alerts that are personalized to the business sector.
- Any enrolled bidder can have access to pending activities of the day, Latest Corrigendum details, To Do List, Recent events, Bid Awards.
- View the full Tender details, including Publishing Date, Closing Date.
- Tender Description and other relevant details.
- Get details of all published tenders real time through the mobile app.
- Provision to get alerts on specific product categories.
- Secured access to information on demand.
- Information provided to General Public as well as enrolled bidders.
- Enrolled users can see the complete tender status at any point of time.
- Award of Contract/Bid Awards information retrieval is also possible.

Capacity Building Training & Monitoring

SMS Alerts 24 X7 Telephonic Help Desk facility is available

(0120-4200462, 0120-4001002, 0120-4001005)

Conclusion

The Central Public Procurement portal is an assimilation of all procurement information across the country in one place. It is driven by the NIC eProcurement system GePNIC© which is used by 27 States /UTs and 559 Central Government organisations. Organisations are free to use their own developed or hired service providers products to meet their procurement needs. The CPP portal facilitates all such organisations / States to push their tender information on a real time basis to the CPP portal. As of now all tenders of the country get reflected in this portal.

It is a constant endeavour by Procurement Policy Division and National Informatics Centre to keep continuously improving the CPP portal. We get lot of encouragement from our users in the form of valuable feedback / suggestions / critical reviews / request for new features etc. With a variety of organisations from Defence sector, Public sector enterprises, Municipalities, Local Bodies, Excise and Forest Departments, Educational institutions, Scientific units and Research Labs are using this platform which supports all kinds of Goods, Works, Services contracts of the nature of Turnkey, PPP, EPC, Global Tenders, Item rate, QCBS eRA and so on. We try to live up to the expectations and have enhanced CPPP with many features.

This year we have been receiving new on boarding requests from at least 10 Organisations a month. The average tenders processed per month is around One Lak tenders per month worth Rs 1.2 Lakhs crores. The overall tenders for 2019-20 is 13,15,769 worth Rs 15,84,891.71 Crore and the total procurement carried out since inception is 57,67,852 tenders worth Rs 79,91,631.04 Crore.

This is a testimony to the widespread use of the system out of choice. Multilateral Banks like World Bank and Asian Development Bank recommend the use of GePNIC© system for procurement carried out in the projects funded by them even in those states where other procurement platforms are operational.
