- REPORT NO: ETDC(CN)/IT/2018-19/455 - 3<sup>rd</sup> Cycle

### Observations: NIL

**Conclusion:** Site is free from OWASP Top 10 2013 Vulnerabilities and is safe for hosting except, Vulnerabilities related to A5 (5.1) of OWASP 2013 as they are not tested due to limitation of scope of testing. Hence it is recommended to carry out the same on the live server. (Refer web application security report for more details)

### Recommendation:

1. Site may be hosted with appropriate privileges of read or execute permission for the general public.
2. Ensure that “Write / Read” appropriate permissions are provided to the folders concerned with the uploading of files.
3. Ensure “Write / Read” appropriate permissions are provided to the folder containing the database.
4. Ensure appropriate protection for Application logs, user logs and establish necessary clock synchronization with international time sources.
5. The equivalent of the below listed URL to be deployed over TSL Version 1.2 :  
<https://eprocure.gov.in/cppp>
6. Web server and OS level hardening need to be in place for the production server.
7. The application owner(s) must conduct a reaudit in case of any addition/change in the dynamic content of the application.
